

# SINGLE GALLON MASTER STREAM NOZZLE

Model: SD-16JNW

## DESCRIPTION

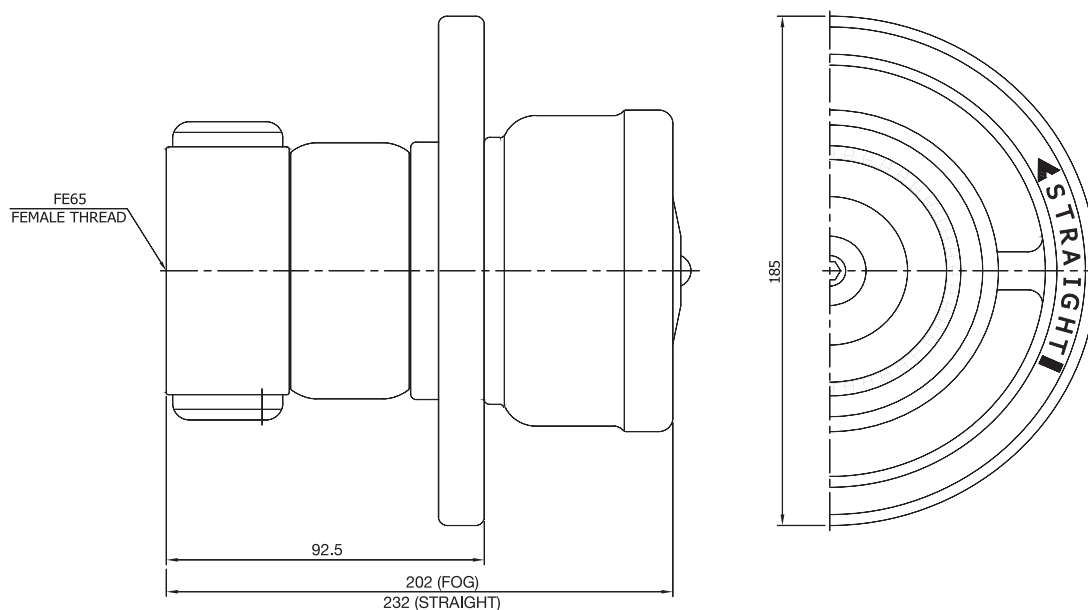

It is designed to apply placing on the fixed industrial monitor or deck gun. Durable light weight alloy drawn-tube construction. Single gallon with round shape light weight controller. Excellent for AFFF application as well. This nozzle is a constant flow nozzle — straight stream, narrow fog (30°) or wide fog (120°). It is flow-efficient with a fully machined waterway for excellent stream quality. It comes with large handles which allow for easy stream pattern management.

## FEATURES

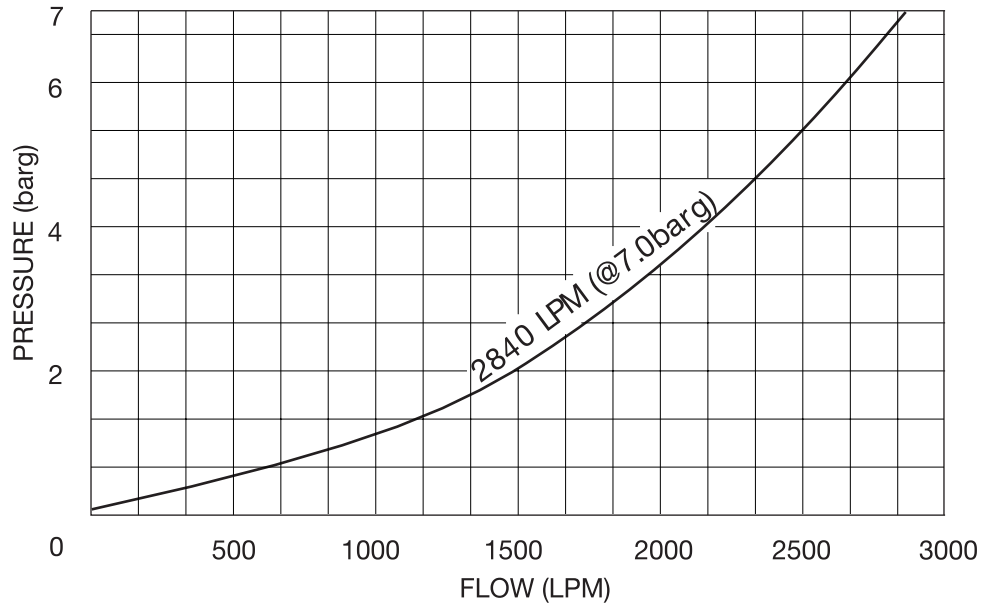

- Fog and straight stream patterns easily changed with large round shape control.
- Constant flow straight stream to wide fog
- The effective range approximately 65m at 7 bar, 45° in jet and 45m narrow fog.

## TECHNICAL DATA
